Location: Indonesia
Bachelor's Degree in Technology/Sarjana/S1 (S.Kom) - STMIK EL RAHMA Yogyakarta

## PROFESSIONAL SUMMARY

Frontend Developer with experience building scalable and user-focused web applications using React and Next.js. Strong expertise in state management, complex form handling, API integration, and reusable component development. Passionate about writing clean, maintainable code, optimizing application performance, and delivering reliable and intuitive user experiences.

## TECHNICAL SKILLS

HTML, CSS, Javascript, Typescript, React, Next.js, Vite, Tailwind CSS, ShadcnUI, Material UI, React Hook Form, Zod, Zustand, Tanstack Query, Pusher-js, REST API, Axios, Git, GitHub, Gitlab, Vercel, Deployment.

## PROFESSIONAL EXPERIENCE

**Frontend Developer - RSU Mitra Paramedika**
January 2023 - Present

- Develop frontend features using React and Next.js for internal and customer-facing applications, including a Hospital Queue System, Hospital Information Management System, and Electronic Medical Record System.
- Build reusable and scalable UI components to improve development efficiency and maintain consistency across features.
- Adopt a configuration-driven form architecture, factory components, and modular feature architecture to improve scalability and maintainability.
- Implement complex form validation and conditional logic using React Hook Form and Zod.
- Manage server state across applications using TanStack Query.
- Maintain clear component boundaries and separation of concerns by assigning responsibilities appropriately across components.
- Collaborate closely with backend engineers and designers to develop and deliver features.
- Work directly with end users to deliver user-friendly and reliable systems while maintaining data accuracy and a clean data structure.

## OTHER EXPERIENCE

**Fullstack Developer - Sotta Art**
June 2025

- Develop a company profile website with an administrative panel using TypeScript and Laravel with AI Assitant.
- Deploy the frontend application to Vercel and the backend application to Alibaba Simple Application Server.
- Configure and manage the domain through RumahWeb.
